

THE NZ SWIMMING
POOL CO.

Water is our
way of life.

nzswimmingpools.co.nz

Why choose The NZ Swimming Pool Co.

Water is our way of life. Every pool we design is built for quality, enjoyment, and lasting memories - creating spaces where families connect and Kiwi lifestyles thrive.

More pool. Less wait.

Your pool is made just for you in **two weeks** in New Zealand. You don't have to pay for international shipping or unnecessary storage costs. We pass those savings directly on to you.

More colours. More choice.

Your pool is made exclusively for you. You can choose any pool in **any colour** from our extensive range without unnecessary wait times.

More water. More value.

Our pools are designed for your backyard, not to fit in a shipping container. That means more space to swim, better proportions and **more water** for your money.

Local all the way.

Our **NZ-made pools** are crafted to the highest performance standards. Our network of dedicated installers ensures your pool fits seamlessly with your home.

Safety always.

Every one of our pools has a **safety ledge** around the entire edge of the pool – providing support for Kiwis young and old.

Made for NZ conditions.

Our pools are designed to withstand heavy rainfall, high water tables and regular earth movements that are **common to Kiwis**, but less familiar in other countries.

More ways to fit your space.

Selected ranges offer both **above-ground and below-ground installation**, giving you flexibility to suit your site and lifestyle. Whether your space is sloped or compact, our pools can be adapted to fit seamlessly.

Feel good feel.

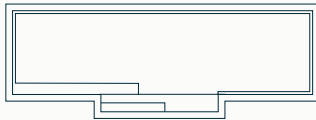

Our gelcoated fibreglass pools are super smooth providing comfortable swimming, less abrasive surfaces, and drastically **reduced pool maintenance** needs.

Hot on extra heat.

If you're keen on all-year-round swimming, our coating technology allows for temperatures as high **as 35°**, while most other pools top out at 27°.

Kiwi Estate Series

The Kiwi Estate Series is designed for those who want to go big. With expansive layouts, uninterrupted swimming lanes, and generous seating, these pools are perfect for large backyards and families who love to entertain, relax, and enjoy true outdoor living.

Kiwi Estate 12

66,000 litres

Length: 12m
Width: 4.4m
Depth: 1.3m - 1.9m

Kiwi Estate 10

55,000 litres

Length: 10m
Width: 4.4m
Depth: 1.3m - 1.9m

Kiwi Estate 8

45,000 litres

Length: 8m
Width: 4.4m
Depth: 1.4m - 1.8m

Kiwi Dream Series

The Kiwi Dream Series lets you balance style with space. With clean, contemporary designs and versatile layouts, these pools maximise enjoyment while fitting seamlessly into a wide range of backyards. Perfect for family life, relaxation, and everyday use.

Kiwi Dream Big 8

44,000 litres

Length: 8m
Width: 4m

Length: 8m
Width: 3m
Depth: 1.3m - 1.8m

Kiwi Dream 6

22,000 litres

Length: 6.5m
Width: 3m
Depth: 1.3m - 1.8m

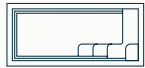

Kiwi Dream 4

19,000 litres

Length: 4m
Width: 3m
Depth: 1.3m - 1.6m

Kiwi Urban Series

The Kiwi Urban Series is designed for compact living, with the option to convert into a hot pool - making it the perfect companion to our larger Dream and Estate ranges. Ideal for urban backyards, patios, and tighter spaces, these pools offer a simple, low-maintenance way to cool off, unwind, and extend your outdoor living experience with a touch of everyday luxury.

Kiwi Urban 5
11,000 litres

Length: 5.2m
Width: 2.4m
Depth: 1.45m

Kiwi Urban 4
9,000 litres

Length: 4m
Width: 2.4m
Depth: 1.45m

Kiwi Urban 2
7,000 litres

Length: 2.4m
Width: 2.4m
Depth: 1.45m

Fibreglass Pool Slide

Built to sit right alongside your pool, this slide is made from the same high-quality materials as our pools, ensuring long-lasting durability. It can be custom-made in any colour from our pool range.

Enhance your pool experience

Pool slide for added fun

Heatable up to 35°C on selected colours

Built-in safety ledge across all pools

Hot pool capability (selected models)

A pool system for generations

Introducing a durable Aquaguard® pool system that brings vibrancy and colour to your new swimming pool.

Colour that lasts.

Our UV-resistant gelcoat system is engineered to protect against the harsh New Zealand sun, helping your pool retain its depth, clarity, and vibrancy for years, not just in the first season.

Surface protection built in.

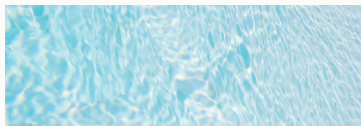

Advanced chemical-resistant coatings are tested beyond standard requirements to help prevent fading, discolouration, and surface wear, maintaining the cosmetic integrity of your pool through years of everyday use and exposure.

Stronger from within.

Manufactured in a controlled environment, our fibreglass pools cure properly and consistently, creating a stronger, more stable structure designed to perform reliably in New Zealand's varied ground conditions and seasonal temperatures.

Smooth, low-maintenance finish.

The smooth, non-porous surface resists algal growth and reduces chemical demand, making cleaning easier and ongoing maintenance simpler so you spend less time managing your pool and more time enjoying it.

White Shimmer

Natural Shimmer

Reef Blue

Sandstone

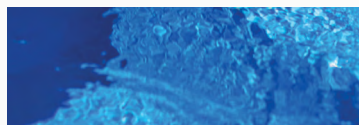

Pumice

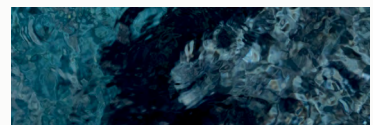

Coral Blue

Platinum

Ocean Blue

Raven Black

Choose your colour

Aquaguard® Shimmer is a range of striking, high performance gelcoats that provide an extremely decorative and reflective finish.

These highly durable coatings exhibit outstanding weathering and fade resistance properties and contain stunning jewel highlights.

The little details you'll appreciate for years to come

A swimming pool is more than a place to cool off. It's where birthdays are celebrated, weekends slow down, grandchildren visit more often and everyday moments become lifelong memories.

That's why every pool from The NZ Swimming Pool Company is thoughtfully designed around the way Kiwis actually live. From family safety to everyday comfort, it's the small design decisions that make the biggest difference over the life of your pool.

Safer for your kids

Nothing matters more than the safety of the people you love.

Unlike many fibreglass pools, our continuous safety ledge is positioned lower within the pool, making it easier for children and less confident swimmers to **regain their footing** and stay comfortably above the water. It's a simple idea that provides greater confidence, reassurance, and peace of mind for the whole family.

Crafted in New Zealand

Every pool from The NZ Swimming Pool Company is handcrafted in our **purpose-built Tauranga manufacturing facility**.

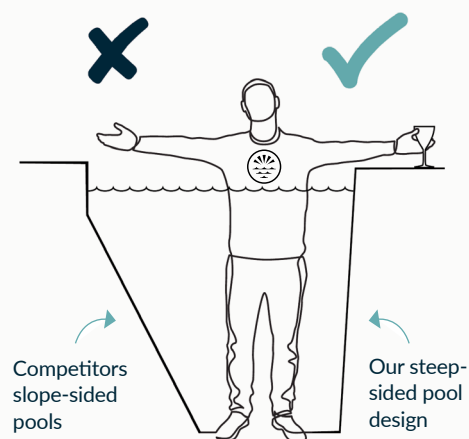

Unlike pools designs for other countries, building locally means we can offer complete quality control, faster delivery, greater flexibility, and a pool engineered specifically for New Zealand soil conditions. It also means local expertise, local support, and the confidence that your pool has been built by people who understand the way Kiwis live.

It's these thoughtful details, large and small, that transform a pool from something you own into a place you'll love for decades.

No compromising on experience

Many imported pools compromise on enjoyment because they are designed to fit efficiently onto international ships before they ever reach your backyard. That often means heavily sloping walls that reduce usable space and make it awkward to relax against the pool edge.

Our pools are designed for New Zealand backyards, not shipping containers. Our **near-vertical side walls** create more usable swimming space and allow you to comfortably stand alongside the pool, chat with friends, or **simply relax with a drink within easy reach**.

Choosing your pool

One of our experienced team members will visit your site to conduct an assessment. We will help you determine the best location and model to suit your landscape and needs.

We will then provide a full written quotation outlining all costs involved in the installation of your pool. Once confirmed, we will apply for any required consents with your local council. As soon as approval is received, we will proceed with installation.

With decades of industry experience, you can rely on The NZ Swimming Pool Co. to deliver the highest quality without compromise.
